

Seat Alhambra 4x4 2011

by SEPUTD on JUNE 20, 2011 [EDIT]

Seat Alhambra 4x4 2011

The Seat Alhambra-wheel-drive version in the style, entered the lists of the Spanish brand at a price of 34,200 euros, excluding Ipt. Announced last February, four-wheel drive version of the MPV Seat arrive in dealerships this summer in a five-seat configuration. For the six-seater, however, will have to wait until the last months of the year.

Performance

The Seat Alhambra relies on the known propulsion units turbodiesel 2.0-liter with 140 hp common rail diesel particulate filter combined with a manual six-speed transmission. The House declares a maximum speed of 191 km / h and acceleration from 0 to 100 times in 11.4 seconds. According to the data for approval, the consumer would be 6.0 liters per hundred kilometers, with CO2 emissions of 158 grams per kilometer. The 4x4 Alhambra Ecomotive adopts standard package, which consists of brake energy recovery system and in the Start & Stop.

Seat Alhambra 4x4

Differential

The 4x4 wheel drive of the Alhambra relies on a Haldex clutch (a joint center-plate in oil bath) controlled electronically, that in particular situations can transfer 100% of torque to the rear wheels in a fraction of a second. The House believes

units a year on average.

Variation On Theme

The data say the market for minivans, the times of fat cows are gone for a while '. Blame the SUV craze, especially, but also families not so prolific. Manufacturers, for their part, were thus forced to settle for lower volumes but also encouraged to come up with something for this. Seat Alhambra tries with the 4x4, now officially joined the list of minivan Spanish.

Before 5 Then 7

Will be proposed in a single setting, the Style. That series has 7 airbags, ABS, ESP, cruise control, rain sensors, light sensors, stereo Seat Sound System with 8 speakers and USB jack, LED indicators, alloy wheels 16 ", three-zone climate on-board computer, Servotronic, and steering wheel controls. It will initially be available only in version 5 places, but in future there is also the Alhambra 4x4 7.

Price

On the engine, the 4x4 system, which relies on the latest-generation Haldex system (with an electronically controlled hydraulic clutch), it goes to the best-selling engine in the range: the 2.0 TDI with 140 hp 6-speed manual transmission. Consumption are reported 6 liters per 100 km, with CO2 emissions to 158 g / km. These values contribute to the start / stop of the series and the SCR catalyst series. The Seat Alhambra 2.0 TDI CR 140 PS 4x4 Style coast, List, EUR 34,200.
